Dear Mr. Rochette:

Noticed in a recent article that appeared in the Los Angeles Times that National Coin Week will be observed from April 20 to April 26. The article mentioned that exhibits of coins will be available for the public to view in various public buildings including banks. Our bank would be interested in a display for the open house of our new Warner and Main office for the week of April 28. If you would put us in touch with the appropriate party here in the Orange County or Southern California area, we would very much like to have a coin display.

Sincerely,
